

# WILD VISIONS

## Book Order Form

I'm taking pre-orders for my new book

### Wild Visions

Celebrating 40 years of my photography, this book will offer you hours of visual enjoyment, plus some key tips in photography. I have added image information to help you understand how I shoot and visualise results.

Two versions of the book are available, as per details on the following page. Both options are the same size and content including:  
\* A4 landscape. \* 216 pages with over 200 of my favourite images. \* Over 15,000 words. \* Hard cover.

I expect to be able to deliver the books in the New Year. Earlier if possible.

Thanks for your purchase, I know you will enjoy this special book.

DARRAN
